Image Menu

We offer several different types of image finishes to suit whatever need you may have. For high school seniors we offer nothing less than the Classic print, which includes print enhancement. This means that blemishes and fatigue lines will be greatly reduced or eliminated. Minor imperfections may not be noticed in your originals, however, when enlarged those details tend to become more noticeable.

Wall portraits are available only in our Deluxe and Canvas lines. On sizes 11x14 and larger, all images will be mounted on art board and will have a protective coating applied to the surface. The art board helps support your portrait and eliminates the need to frame your image behind glass. Prints that are framed behind glass have the tendency to buckle and stick to the glass. The protective coating provides a barrier to the elements and will allow you to dust your image with a soft clean cloth. These features will help insure that your portraits will last for a lifetime.

Portrait Finishes

Classic - Our standard portrait finish that includes print enhancement.

Deluxe - Our Classic portrait finish that is mounted on art board and has a protective UV coating applied to the surface of the portrait.

Canvas - The ultimate portrait finish that is bonded to artist's canvas and is mounted on heavy art board.

Pricing and packaging subject to change without notice. PA sales tax not included.
